PROXTRONICS DOSIMETRY, L.L.C. (dba PROXDOSE) is a Virginia-based products and services company specializing in dosimetry processing, equipment sales, and services.

Our service is matched with
“UNPARALLELED FLEXIBILITY”!

PROXDOSE™ STRATEGIC BUSINESS UNITS

RADIATION DOSIMETRY SERVICES

Dosimetry is the measurement of radiation dose. This is accomplished using devices known as dosimeters. The type of dosimeter PROXDOSE™ uses is called a *ThermoLuminescence Dosimeter*, or TLD. TLDs are sometimes referred to as “Radiation Badges” or “X-Ray Badges.” PROXDOSE provides Personal, Environmental and Area Monitoring Dosimetry Services to determine occupational exposure to ionizing radiation .

EQUIPMENT & SUPPLIES

PROXDOSE™ provides a complete line of solution including dosimetry equipment, hardware, software, and operator training. We are able to cater to the needs of laboratories to help them manage costs and maintain their internal operations.

All of our products can be used by any dosimetry laboratories utilizing the PANASONIC® platform.

MAINTENANCE & REPAIR SERVICES

PROXDOSE™ is one of the leading specialist in PANASONIC® products. We provide on a global basis: maintenance, calibration, and repair, as well as other services. We offer “UNPARALLELED FLEXIBILITY” to our clients as we can perform our services on-site worldwide, or in our facilities in North America and Europe.

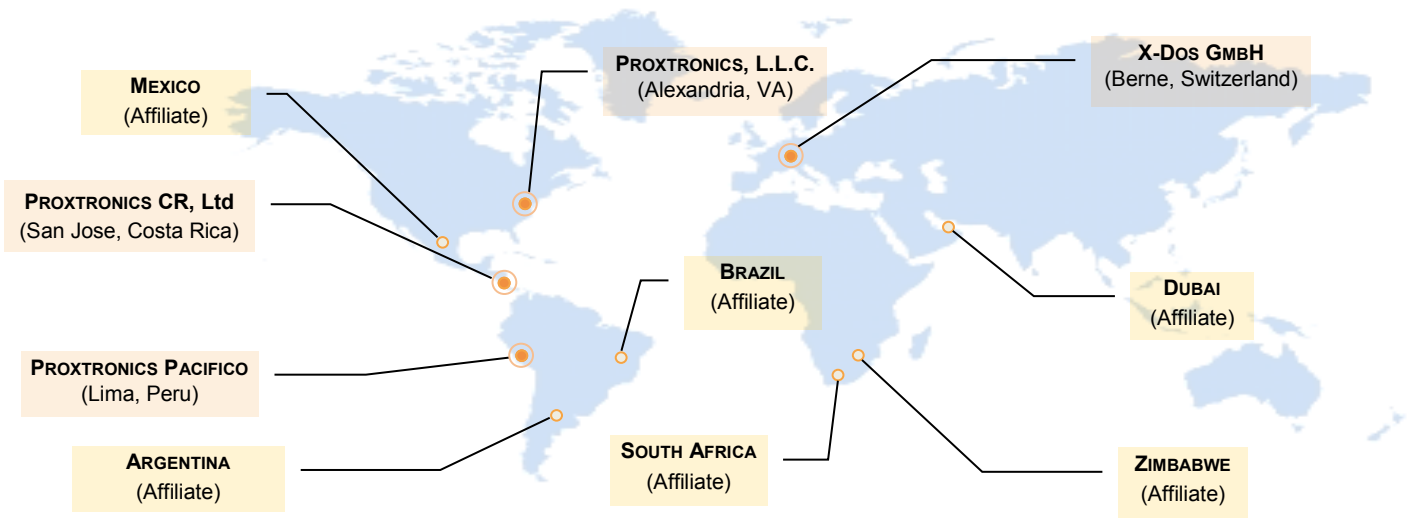

PROXDOSE™ SOLUTIONS

PROXDOSE™ provides analytical services to determine occupational and environmental radiation (x-ray, gamma, beta and neutron) exposure. Services include various types of proprietary radiation detection devices, the distribution and collection of the devices to and from clients, and the analysis and reporting of exposure findings.

PROXDOSE™ provides a complete line of solutions for radiation monitoring equipment and services including: passive dosimeters, holders, and accessories, dosimetry processing equipment, and software. PROXDOSE™ offers Dosimetry Products via its proprietary PROXDOS™ brand, as well as PANASONIC® products.

PROXDOSE™ PARTNERSHIP /AFFILIATES/VALUE ADDED RE-SELLERS

PROXDOSE™ boasts a worldwide presence. Our network of distributors, are the cornerstones for the success of PROXDOSE. They provide for additional market penetration, and allow PROXDOSE to efficiently service our clients worldwide. The growth sectors include but are not limited to: energy, environmental, industrial, medical, and security. Our marketing sectors include commercial and governmental worldwide.
