For more than 30 years, PROXDOSE™, has been a leading provider of personnel radiation monitoring, and technical services.

## PROXDOSE™ EQUIPMENT SOLUTIONS

PROXDOSE provides a complete line of solutions for PANASONIC® processors and users. Our diverse offerings include readers, dosimeters, and hangers to help laboratories reduce cost and maintain their operations.

Our program provides a comprehensive package including hardware, PROXDOS™ software (new), and maintenance services. All of our products and services can be used by dosimetry laboratories utilizing the PANASONIC® platforms.

Contact us for quotes for new and refurbished products.
